WORKPLACE DRUG TESTING

Aspiring Medical Centre is now an approved collection venue for workplace drug testing in accordance with NZ standard 4308:2008.

Urine samples are collected by us in compliance with the requirements of the standard and sent to Canterbury Health Laboratories for testing. Canterbury Health Laboratories is an accredited New Zealand laboratory that provides accurate and sensitive results for drug screening and drug test confirmation using state of the art testing equipment. These results are strictly controlled and able to withstand legal challenge. CHL can conduct any form of drug testing for your business – from pre-employment checks right through to reasonable grounds testing. Results of the tests are sent directly to the employer or organization who has requested the tests.

The laboratory screens for

- Amphetamine type substances
- Benzodiazepines
- Cannabinoids
- Cocaine Metabolites
- Opiates
- Other substances by request

If you would like us to collect a sample for your employee(s), this can be done either as part of a pre-employment medical or as a stand-alone procedure. When booking an employee in for a test it is important to tell the receptionist that the appointment is for a workplace drug test. The employee needs to bring with them

- an employer request form
- photo ID

The AMC charge for the sample collection as a one-off procedure is \$45. Special rates for multiple employees are available by arrangement with the Practice Manager. Our charges for full pre-employment medicals are available from on request.

Canterbury Health Laboratories will bill the employer \$63.05 to screen for the substances listed above. If additional requests are added there will be additional costs.

If you would like more information about workplace drug screening please feel free to contact our Nurse Manager – Lynda Davis or go to www.workplacedrugtest.co.nz/Workplace-Drug-Testing/workplace-drug-testing
